

ACTIVE CARE EMAIL SECURITY MANAGED SERVICE

Secure your business from known, unknown
and emerging email threats

Today, the majority of organizations, regardless of size or industry, have realized that Cybersecurity is a huge issue with a severe impact on operations.

Simultaneously, their IT staff is usually overwhelmed with the daily administration tasks and keeping systems running. Time is a luxury, and cybersecurity is often overlooked in favor of other priorities. New threats emerge constantly, and the growing sophistication of cyberattacks demands swift action and expertise.

Email still remains the main attack vector used by adversaries to gain initial access in an organization. Effective protection against email threats becomes a tedious and complicated task.

Active Care Email Security Managed Service provides comprehensive, worry-free protection from traditional as well as sophisticated email threats, including spam, viruses, phishing attacks and malicious URLs.
