Cryoserver™

> *In a nutshell Cryoserver was purchased as a high level answer to a need, but has evolved into a day to day product. People can't lose emails and that really helps IT*
>
> **- Gary Hancock North Warwickshire Council**

> *What's More... Reduce premium storage requirements for email data moved into the archive. Archive with Cryoserver and stop wasting resources now!*

> *What's More... Cryoserver puts an end to allegations of snooping, and allows for total transparency within your business by attaching a tamper-evident audit trail to your archive.*

Departmental benefits

Cryoserver can benefit everyone in an organisation.

Our technology makes life easier for HR; meets the needs of both legal and compliance; supports IT with all email related tasks; and has been welcomed by financial departments across multiple industries as a valuable cost reduction.

Not only that, but the more departments begin to use Cryoserver, the more people benefit from real cost and time savings by bringing an improvement in efficiency.

⚠ IT department benefits

- Deduplication and compression of email means less storage used
- Reduced end user help requests gives IT more chance to be proactive in their role
- Improved IT security with an additional gateway to your email
- No more PST files means no more PST management issues
- No plugins make for easy management and implementation
- Additional reduction of the mail server storage space using "stubbing"
- No IT involvement in HR investigations
- Disaster Recovery
- Assists migration between mailservers or to Office 365

⚠ Benefits for Human Resources

- Makes eDiscovery fast and easy
- No longer need to wait for help with email investigations
- Helps your business be compliant with privacy laws
- Audit prevents unfair searches or snooping and therefore ensures compliance with privacy laws
- Encourages employees to make a behaviour change for the better

> *What's More...*
> *Set your own retention period to adhere to your own internal policies & industry. With Cryoserver you can keep emails for seven years, seven decades or just permanently. Whatever your retention period you always have lightning fast access.*

> *What's More...*
> *With Cryoserver employee efficiency takes large strides forward, thanks to the instant access to a bottomless inbox.*

> *I've never spoken to an individual who knew about Cryoserver and chose not to utilize it!*
